Music Player

Test result: very good
Without ifs and buts: the quality is great, the sound is overwhelming, the operation completely logical - and the gigantic selection of music available from the PC and the Internet is priceless.

CD Player

Test verdict: very good
Price : performance: superb
Sound: absolutely top-class
Superbly built CD player with switchable filters for sound variation. Particularly delicate sound, with ultra-stable imaging and eloquent bass.

HomeVision

6/2008

Power Plant

Test result: excellent
Value for money: superb
Extremely dynamic with an impressive sound-stage, stable under load
intuitive to operate.
Powerful amp with a stunningly natural, very open sound.

STEREO

8/2008

Music Player

Price : performance ratio: superb
Features, workmanship, sound quality - the new E-series from T + A is outstanding in every respect, and looks great. In the Music Player T + A has produced an exceptionally flexible and superbly versatile source device which combines its ground-breaking facilities - such as network streaming and on-line radio - with an intuitive control system and an energetic, highly agile sound character.
A fantastic buy, five stars.

STEREO

8/2008

Power Plant

Price : performance ratio: excellent
The potent Power Plant also made friends instantly on its first appearance in our listening rooms. The Herford power-pack combines an alluringly fluid musical nature with an impressive wealth of detail, good resolution and neutral sound colouring. Features and manufacturing quality are impeccable.
